

Jagiellonian University in Kraków promotes cooperation and cares for a good atmosphere based on mutual trust. It implements the strategy resulting from The Human Resources Strategy for Researchers, creating stable conditions for employment as well as the development of academic career, which resulted in the award of the HR Excellence in Research by the European Commission

406.1101.2.2023

INFORMATION ON SELECTION PROCEDURE

Date of selection procedure announcement Krakow, 27.02.2023

<i>Selection procedure information number given by the Centre for Human Resources</i>	1227.1101.57.2023.
<i>Dean of the faculty of /Director of a non-faculty, inter-faculty or common unit</i>	Dean of the Faculty of Chemistry Prof. Dr. Habil. Wojciech Macyk
<i>Address</i>	Jagiellonian University in Cracow Faculty of Chemistry Gronostajowa 2 30-387 Krakow

RECTOR

of the Jagiellonian University

announces a selection procedure for the position of an

ASSISTANT PROFESSOR

<i>Group of employees</i>	Research staff
<i>JU organisational unit (place of work performance)</i>	Faculty of Chemistry
<i>Field of science</i>	Exact and natural sciences
<i>Discipline</i>	chemistry
<i>Scope</i>	Heterogenous catalysis, spectroscopy
<i>Number of posts</i>	1
<i>Type of employment</i>	contract of employment
<i>Working time</i>	full-time
<i>Planned duration of employment</i>	24 months

Expected date of employment commencement	September – October 2023 r.
Remuneration	according to the Rules for Remunerating Jagiellonian University Employees
Requirements	<p>The selection procedure is open for all individuals, who meet the requirements set out in Articles 113 and 116.2.3) of the Act of 20 July 2018 – Law on Higher Education and Science, and who meet the following eligibility criteria according to § 165 of the Statute of the Jagiellonian University:</p> <ul style="list-style-type: none"> • holding at least a doctoral degree; • having relevant scientific achievements; • taking active part in scientific life.
Additional requirements and expectations	<p>Holding at least a doctoral degree; obtained in the year of employment in the project or in 7 years before January 1 of the year of employment in the project and obtained a doctoral degree in an entity other than Jagiellonian University (JU). The last condition is ceased if the applicant has completed at least 10 months of continuous and documented postdoctoral fellowship in an entity other than JU and in a country other than Poland.</p> <p>Documented experience:</p> <ul style="list-style-type: none"> – in conducting catalytic research using chromatographic methods and mass spectrometry, – in conducting spectroscopic studies (IR and UV-Vis), – in characterization of microporous solids using TPR, TPD, sorption techniques, etc.
Project Title	Redox site at the atomic level. One-pot rapid scan in situ & operando 2D COS UV-VIS-IR approach to defining intermediates ruling catalytic oxidation of low paraffin
Project description	<p>Modification of zeolites with transition metal ions (TMIs) results in creation of active redox sites with open coordination which makes TMI-zeolites very efficient redox catalysts in diversity of oxidation processes, to recall only N₂O decomposition, oxidations of hydrocarbons and selective catalytic NO_x reduction. Complex nature of these active sites is difficult to describe as it is inherent in the zeolite (pore topology, Si/Al, mutual Al location, TMIs loading, TMIs introduction method). The main project objective is of dual nature: firstly the methodology of advanced <i>operando</i> and <i>in situ</i> IR-UV-Vis studies supported by rapid scanning mode and two-dimensional correlation analysis (2D COS) will be developed to attain the atomic level for dedicated studies of single redox site and its zeolitic vicinity. Insight into the relationship between the properties of a redox site modified by the zeolite framework offers understanding the structure and performance of specific active sites. Secondly, the nature of particular redox site at microporous environment will be addressed to catalytic performance to establish the structure-activity relationship and move the chemical industry towards sustainability.</p>
Scope of duties	<p>according to the Work Regulations of the Jagiellonian University Annex 1 to the Work Regulations of the Jagiellonian University – Model scopes of responsibilities and duties of academic teachers.</p> <p>Duties resulting from the project:</p> <ol style="list-style-type: none"> 1. Synthesis and modification of the materials with respect to the Al location and redox sites speciation. 2. Characterization of materials employing structural, textural and spectroscopic methods vs. intermediates nature and possible reaction's mechanism; 2D COS analysis. 3. Individual literature research. 4. Active participation in advanced spectroscopic experiments dedicated to the evaluation of reaction mechanism. 5. Discussion of results and manuscript preparation. 6. Preparation of the reports from project realization.

We offer	<ul style="list-style-type: none"> • stable employment based on an employment contract at the renowned university, • cooperation with the interdisciplinary academic community represented by well-known scientists, • scientific support as well as the possibility of qualifications improvement and professional development, • access to research infrastructure, • benefits in the form of i.a. Multisport card, sports activities, medical packages, group insurance, • additional social benefits.
Required application documents	<ol style="list-style-type: none"> 1. resume, 2. personal questionnaire filled in by the candidate, 3. copy of the doctoral diploma or a diploma confirming the candidate's habilitation degree, if applicable, 4. information on the candidate's scientific, teaching and organisational achievements, 5. declaration of the candidate, confirming that the Jagiellonian University will be their primary place of work, should they be selected in the selection procedure, 6. statement under Article 113 of the Law on higher education and science, 7. statement on acknowledging and accepting the rules and regulations concerning intellectual property management and commercialisation in force at the Jagiellonian University. <p>Declaration forms (no. 5-7) and personal questionnaire template (no. 2) can be obtained at: https://cso.uj.edu.pl/en_GB/konkursy</p>
Additional application documents	<ol style="list-style-type: none"> 1. list of publications (along with the respective publishing houses and the number of pages), if applicable, 2. doctoral dissertation or habilitation dissertation review, if applicable, 3. recommendation concerning the candidate's predisposition of research work.
The course of selection procedure	<p>The first stage of the selection procedure is the formal assessment of the submitted documents. Applications which meet all formal requirements are the subject of substantive assessment, during which an interview with the Candidate may be conducted (directly or via electronic communication channels), upon settling the date of the interview with the Candidate. The Candidate has the right to appeal against the negative assessment by the selection board within 7 days from receiving the information about the results of the assessment.</p>
Form of submission	<p>by e-mail to the address: etat@chemia.uj.edu.pl, title: POST-DOC OPUS 21 Kinga Góra-Marek</p> <p>by mail to: Faculty of Chemistry, Gronostajowa 2, 30-387 Krakow with the note: POST-DOC OPUS 21 Kinga Góra-Marek</p>
Deadline for submission of applications	6th April 2023
Expected date of the selection procedure settlement	30th June 2023
Method of communicating of the results of the selection procedure	by e-mail
Questions	For further information please contact prof. Kinga Góra-Marek, e-mail address: kinga.gora-marek@uj.edu.pl .

In the selection procedure, the Jagiellonian University follows the principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers. Jagiellonian University does not provide housing.

On behalf of
the Rector of the Jagiellonian University
prof. dr hab. Wojciech Macyk
Dean of the Faculty of Chemistry

Personal data processing information for job applicants

According to Article 13 of the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation – hereinafter GDPR), the Jagiellonian University informs that:

1. The Administrator of your personal data is the Jagiellonian University with its registered office in Gołębia 24, 31-007 Kraków, represented by the Rector of UJ.
2. The Jagiellonian University appointed the Data Protection Officer www.iod.uj.edu.pl, Gołębia 24, 30-007 Kraków. The Officer can be contacted by email: iod@uj.edu.pl or at the telephone number 12 663 12 25.
3. Your personal data will be processed in order to:
 - a. conduct recruitment process for the position specified in the advertisement – as part of the legal obligation of the Administrator pursuant to Art. 6 (1) lit c of the GDPR in connection with the Polish Labour Code;
 - b. conduct recruitment process for the position specified in the advertisement based on your consent pursuant to Art. 6 (1) lit a of the GDPR – your consent is granted by the clear action of submitting your CV with the Administrator. The consent to the processing of personal data concerns data that you voluntarily provide as part of your CV, which do not result from Polish Labour Code.
4. The obligation to provide your personal data results from the law (it applies to personal data processed under Article 6 (1) lit c of the GDPR). Failure to provide you personal data will result in your inability to take part in the recruitment process. Submission of personal data processed on the basis of consent (Article 6 (1) lit a of the GDPR) is voluntary.
5. Your data will be processed during the recruitment period. In the event of not concluding the contract with you, your data will be deleted after the recruitment process.
6. You have the right of access to the content of your personal data, as well as the right to correct, delete, restrict processing, transfer, object to processing – on the terms and conditions set out in the GDPR.
7. If the processing is based on consent, you have the right to withdraw the consent at any time, which shall not affect the lawfulness of processing based on the consent given before the withdrawal. Withdrawal of consent to the processing of personal data can be sent by e-mail to: etat@chemia.uj.edu.pl or by post to the following address: **Jagiellonian University, Faculty of Chemistry, Gronostajowa Street 2, 30-387 Krakow** or you can withdraw your consent in person **at room C0-06 address as above**.
8. Your personal data will not be subject to automated decision making or profiling.
9. You have the right to lodge a complaint with the Inspector General for the Protection of Personal Data, if you feel that the processing of your personal data violates the GDPR regulations.
