Project Title	<i>“Behavior in Crisis Lab”</i>
Project description	Crises, emergencies, and disasters are an integral part of our lives and usually lead to great changes in the lives of people and societies.

	<p>They lead to suffering. They expose weaknesses in social and political systems. They lead to social tensions and conflicts. However, they can also be an opportunity for change. By better understanding the nature of crises, their course and dynamics, and the behaviour of individuals and groups in crisis situations, we can better prepare for future crises and emerge stronger from current ones.</p> <p>Knowing how important it is, therefore, to obtain the best possible scientific knowledge of crises and to understand the mechanisms that shape the behaviour of individuals and societies, we have established the Behavior in Crisis Lab to conduct research and expert work on behaviour in global crises.</p> <p>The centre has been conceived as a platform for working together on existing projects, providing peer support, and launching new initiatives. It aims to integrate the efforts of individual groups and researchers, thereby ensuring synergistic effects that are difficult or impossible to achieve without coordination and support of ongoing work. It is expected that the person employed at BiC-L, in addition to involvement in existing projects, will also develop their own research programs.</p> <p>The programme will build on the existing findings, skills, and collaborations of the CSCS/INCET/CEAPP consortium and expand its scope to include new research questions and methods. The Centre will also benefit from collaborations with top scientists in Europe and the USA, who will provide additional mentoring and support.</p>
<p>Scope of duties</p>	<p>according to the Work Regulations of the Jagiellonian University Annex 1 to the Work Regulations of the Jagiellonian University – Model scopes of responsibilities and duties of academic teachers.</p> <ul style="list-style-type: none"> • Conduct top-class internationally competitive and innovative research. • Develop the research group based on JU researchers. • Apply for grants (locally - to the National Science Centre, the Foundation for Polish Science, and the Ministry of Science and Higher Education, and internationally - e.g., the European Commission / European Research Council and the Human Frontiers Science Program, as a principal investigator or co-investigator). • Disseminate results in top-rank scientific papers.
<p>We offer</p>	<ul style="list-style-type: none"> • stable employment based on an employment contract at the renowned university, • cooperation with the interdisciplinary academic community represented by well-known scientists, • scientific support as well as the possibility of qualifications improvement and professional development, • access to research infrastructure, • benefits in the form of i.a. Multisport card, sports activities, medical packages, group insurance, • additional social benefits, • freedom and the intellectual and financial support to pursue your intellectual interests as presented in your proposal and to work creatively across disciplines to produce internationally exciting research, • mentoring by members of our Advisory in preparation of your next career steps, • networking opportunities with a range of academic and non-academic stakeholders, • a stimulating intellectual environment.
